- **E-commerce**

Liberalisation has failed

- **No competition**
- **Higher Prices**
- **Lower Quality**
- **Less Employment to the detriment of quality**

Postal reality

- **Downsizing**
- **Outsourcing**
- **Diversification**
- **Privatisation**

Our demands...

post & logistics

- **Invest in the Future**
- **Include Parcels in the USO**
- **Social and environmental minimum standards**
- **Guarantee financing the USO**
- **No further libéralisation and de-regulation!**

Together we can make a difference!

Ensure high quality jobs and services in the EU!

Don't dismantle the Universal postal network!
