

Workshop on Space Activities Licensing Lisbon, Portugal

	Amphitheatre B of Nova School of Law – Campus Campolide
	23 March: 14h30-18h00

AGENDA

Thursday, 23.03.2023

14h30- 14h45

Opening session

Introduction by	<p>João Cadete de Matos, ANACOM</p> <p>Margarida Lima Rego, NOVA School of Law</p>
------------------------	--

14h45- 15h45

1 Session I – Space Activities in the XXI century – what’s next for regulators?

Moderated by	Francisco Pereira Coutinho, NOVA School of Law / SPARC
Speakers	<ul style="list-style-type: none"> <li style="margin-bottom: 15px;"> <p>• Joan Alabart, Agência Espacial Portuguesa Joan Alabart is a Spanish Civil Engineer from Universitat Politècnica de Catalunya who spent one year at TU Delft in an exchange program. He worked for several years in project engineering and project management in large international engineering projects (rail, road, maritime) which he combined with a life-long passion for space. In 2019 he moved to Portugal to join the Portuguese Space Agency where he is the Industrial Relations and Projects Officer being responsible for the areas of Space Exploration and Commercialization. He is the national delegate at different ESA Programme Boards as well as delegate and NCP for Space at Horizon Europe amongst other international organizations. Most of his time is dedicated to promoting the use of space by other sectors fostering potential new markets and business and challenging researchers to come up with innovative ideas that tackle major societal issues.</p> <div style="float: right; text-align: center;"></div> <p>• Hege Susann Aalstad, NO CAA Hege joined the Civil Aviation Authority in Norway in 2005 and has since then held a number of different roles in the CAA. She is currently manager for regulatory affairs and oversees all development of secondary regulations in the field of aviation. Hege advises regularly on matters that lie at the interface between aviation and other areas of society. She sat on the committee that drafted the proposal for the new space act. The CAA has in 2023 been</p> <div style="float: right; text-align: center;"></div>

	<p>appointed the Norwegian space authority and Hege will be Head of Space Section from 1 April 2023.</p> <ul style="list-style-type: none"> Pedro Ferreira, ANACOM Pedro Ferreira was born in 1962. He is married and has two children. He holds a Master degree in legal and political sciences and has been teaching Administrative Law and Space Law in different universities in Macao, Lisbon and Braga. Until 1999 he was head of the Legal Department of Postal Services and Telecommunications in Macao, when he joined ANACOM (National Authority of Communications), as senior specialist. He is currently Director of the Board Support Cabinet and of the External Affairs and Development Cabinet at ANACOM. He was the coordinator of the “Space Group” in charge of drafting the Portuguese Space bylaws in 2021 and is now heading the Space unit at ANACOM, which is also the national Space Authority. He has published several articles and books on Telecommunications Law, Data Protection Law and Space Law and has participated as a speaker on several international conferences in Portugal and abroad.

15h45 – 16h00 Coffee break

16h00- 16h45

2 Session II – International cooperation on licensing

<p>Moderated by</p>	<p>Luis Terrinha, NOVA School of Law / SPARC</p>
<p>Speakers</p>	<ul style="list-style-type: none"> Colin MacLeod, UK CAA Colin joined the UK Civil Aviation Authority (CAA) in 2020 as Head of UK Space Regulation. He has built a team of experienced space engineers and regulators enabling the CAA to take on the legal responsibility for UK space regulation in July 2021. Prior to this Colin was Director of Legislation and Regulation in the UK Space Agency, where he led the Agency’s work with the Department for Transport on secondary legislation needed to implement the Space Industry Act 2018. As a career civil servant Colin has deep experience in policy, operations and delivery, with extensive experience in working with regulators and industry with a focus on national and nuclear safety along with security policy and assurance. Fernando Guerra, ANACOM Fernando Guerra is an electronic and telecommunications engineer from IST. He is currently the Head of the Mission Unit for Space in ANACOM/Space Authority. After some years working in the National Space Research Institute (INPE) in Brazil, he joined ANACOM early in 90’s to deal with spectrum strategic planning for space radiocommunications services. He is also the national representative for Telecommunications and Navigation Committees in European Space Agency (ESA)  

	<p>as well as the national representative in the GOVSATCOM, STM (Space Traffic Management) and Secure Connectivity Groups of DG DEFIS (DG for Defense Industry and Space) of the European Commission.</p> <ul style="list-style-type: none"> Fernando Pereira, PT Space Fernando Pereira was commissioned in the Portuguese General Staff of the Armed Forces to serve as a Defence Liaison Officer at the Portugal Space, Portuguese Space Agency, responsible for the liaison between Defense and the Agency as a representant of the Portuguese Navy, in the agency he followed projects related to earth observation and access to space. For 15 years served at sea on board ships, like small patrol boats, frigates and sailing ships, where has developed naval and leadership expertise. And in land served in others Navy Support Units, like Portuguese Hydrographic Office, Naval Fleet Commander and Naval Technologies School. With a background in Naval Military Science, has specialized in Maritime Navigation. He is currently attending a course on Maritime Authority, to later carry out duties in the structure of the National Maritime Authority. Vítor Marques, ANAC
