STATISTICAL INFORMATION ON WRITTEN MESSAGES TO BE SUBMITTED BY THE FIXED TELEPHONE SERVICE (FTS) PROVIDERS

Point I presents the SMS indicators the providers should send in on a quarterly basis. Point II includes the indicators that should only be submitted to ANACOM on an annual basis.

I. INFORMATION TO SUBMIT TO ANACOM ON A QUARTERLY BASIS

This statistical information should be made available to ANACOM by the 30th day after the end of each quarter.

Each quarter the fields for the same quarter and the "Annual Total" column should be filled out for each indicator, as per the following table.

These indicators should not be sent in accumulated terms; the value of the "Annual Total" column shall in each quarter correspond to the sum of the already verified quarterly totals.

I.1.	1st quarter	2nd quarter	3rd quarter	4th quarter	ANNUAL TOTAL
No. of written messages originating and terminating in the provider's own fixed network					
No. of written messages originating in the provider's own fixed network and terminating in the fixed network of another provider					
No. of written messages originating in the provider's own fixed network and terminating in the mobile network					
Total no. of written messages originating in the provider's own fixed network					

II. INFORMATION TO SUBMIT TO ANACOM ON AN ANNUAL BASIS

This statistical information should be made available to ANACOM by 31 January of each year.

For each year the fields for the respective quarterly values and the “Annual Total” column should be filled out for each indicator, as per the following table.

These indicators should not be sent in accumulated terms; the value of the “ANNUAL TOTAL” column shall in each quarter correspond to the sum of the already verified quarterly totals.

II.1. Revenues associated to written messages (in euros)¹	1st quarter	2nd quarter	3rd quarter	4th quarter	ANNUAL TOTAL
A. Revenues from adhesion and monthly fees					
B. Revenues from written messages originating and terminating in the provider's own fixed network and terminating in the fixed network ²					
C. Revenues from written messages originating in the provider's own fixed network and terminating in the mobile network ²					
D. Total (A+B+C)					

¹ This information should be sent to ANACOM on an annual basis, along with the remaining statistical information for the 4th quarter of each year, and respect the values invoiced during the same year. Official rounding rules for the euro are applied to the monetary values, i.e., the values are set to two decimal places and the result is rounded off to the closest cent, up or down, (eg. a result of €24.254 is rounded off to €24.25 and one of €38.555 is rounded off to €38.56).

² Only retail revenues in the context of the considered messages should be included.
