

Title: eTEN companies meet the most active technology investors & partners!

Prepare for a bright future! Your ambition is what will propel your company to the next level.

On **4 & 5 December 2006** you have a chance to do this. That day is when private equity financiers, tech corporates and top European tech entrepreneurs such as yourself will converge at the 15th edition of **The European Tech Investment Forum in Lisbon**. There, you will meet the most active technology investors and potential partners ready to hear *your* company's story at this high-caliber event and perhaps we will hear *your* success story soon thereafter.

This new edition is under the auspices of the **European Venture Summit** bringing together the most popular conferences of Europe Unlimited.

These are event highlights for participating eTEN companies:

- Up to **6 One2One Meetings** of 20 minutes each with VCs and corporate executives interested in your sector to discuss your business needs
- A **Public Presentation** in front of a panel of investment and business experts and an audience of VCs and corporate executives
- **European Visibility** with your company being featured on the Summit's website and in a 2-page Company Profile in the Conference Binder distributed to all participants from across the continent
- **Coaching from the Venture Academy** on Sunday 3 December so that you can best present your company to gain investors and establish strategic partnerships
- Individual **eTEN Consultancy Support** to prepare your meetings with potential venture capital and corporate investors before the Summit

Thanks to the support of the European Commission, **eTEN Projects receive a 50% discount on the registration fee!** On top of this, our Advisory Board will select 3 eTEN companies that will receive a **free presentation slot!**

Secure your free spot now by registering at: <http://evs.e-unlimited.com/> and mention the partner code eTEN0412.

In any case, please respond with your initial interest about the event, so our eTEN specialist can follow-up with you and have ample time to consult you with your preparations for the event!

Yours sincerely,

Simone Mandigers
